

FORTUNE 500

SPM designs specifies and builds components for some of the world's most prominent Fortune 500 companies today

SOLID TO FABRICATION

SolidWorks, AutoCad and Mastercam allow us to convert your parasolids immediately into production, with minimal programming. And that same parasolid is loaded into our metrology equipment for increased speed and accuracy!

ONE LESS VARIABLE!

SPM uses customized software to readily collect, organize and store information, calculate answers and present results via control charts for our customers.

Full ERP System

Bar Code capable

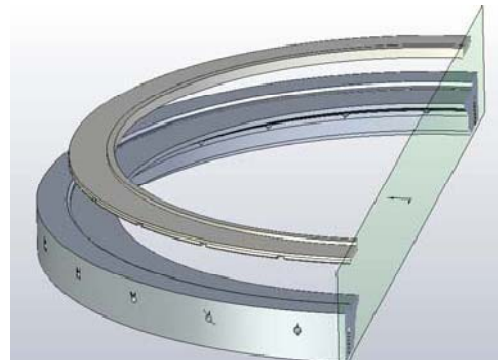

Laser Marking and LOT Track

APICS certified Professionals

SPM Technology has supplied CMP retaining rings to the industry since 1996. During that time, we have pioneered new designs and materials that consistently lower customers cost per wafer

Additional Ebara® Components Available

Compatible With	Description
c-5172-039-0001	Motor, dresser swing arm
c-5152-052-0001 Cep022-CEH0040	Driver, servo(Panasonic Msda043D1A)
c-5500-030-0111(stv-16t)	Sensor terminal
smcR2010-02	Manual regulator
C-5172-036-0001	Top Ring-Motor,Cycro Drive 0.75kw
A-1000-162-0001-001	VME computer rack and boards
c-1212-033-001 cep011-BMB1100	Seal, Oil For Top Ring
C-3115-096-0001	Collar
C-3818-028-0001	Rod
C-1021-062-0001	Nut
sz3a60k-5Lozd-c4	Valve,sol-4way
c-1045-064-0001	Pin, needle
c8036-005666-1	H20 leak det paper
c-1124-003-0001	Bearing
C-5172-039	Motor, dresser swing arm
Number not Available	Top ring motor
C-5002-063-0301	VME CPU board
